WASTE MANAGEMENT

Service Offerings

Equipped for great service

Got a tough disposal or waste management project? Bring it on! Turn to Veit for convenient single-source disposal and recycling services.

With our fleet of 45 trucks and more than 2,000 containers, we're well equipped to meet your needs quickly, whether you need disposal services or want containers delivered to single or multiple sites.

Transfer and recycling

Veit can haul your waste to our transfer station for careful sorting and recycling, then take non-recyclables to one of three permitted landfills we own and operate. We take pride in maintaining a reduce, reuse and recycling rate of over 50 percent.

Special site restrictions? Our professional drivers will keep your site clean, place containers carefully, and observe approved hours for container delivery and pickup.

Good environmental stewards

As a member of the U.S. Green Building Council, we can help you achieve waste recycling points for your LEED Green Building Rating. Veit works closely with many environmental organizations to ensure sound environmental practices.

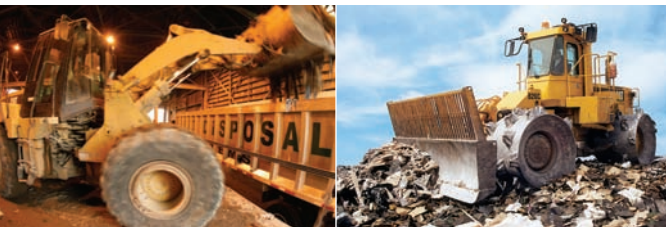

As the largest provider of roll-off container service in Minnesota, Veit offers more container sizes to choose from, 24-hour service, and consistently lower prices.

Waste Management Services

- *Disposal*
Get 24-hour service – and the widest selection of affordable roll-off containers in Minnesota. Containers are sized at 6 cubic yards (metro only) or 10, 20, 30 or 40 cubic yards (statewide).
- *Waste Hauling*
– Commodity and hazardous materials
– End dump trucking
- *Recycling & Transfer*
Use Veit's turnkey transfer and recycling process to get full value from your debris. All Veit operations are fully compliant with state and federal environmental regulations.
- *Landfills*
– Construction and demolition debris landfills
– MPCA-permitted landfills in Austin, Duluth, and Becker, Minnesota

Call today for an estimate. See location phone numbers on back.

Save time and money. Rely on Veit's single-source waste management capabilities to simplify every step of the disposal process, from roll-off container delivery to waste hauling and recycling.
