EARTHWORK

Industrial Site Development, Excavation and Grading

Turnkey capabilities, solid commitment

Start your next industrial construction project confidently: Partner with Veit. Veit has the equipment, professional project managers and expert field staff to execute all phases of industrial site development — whether you're building or expanding a refinery/petrochemical facility, power plant, mining facility or ethanol plant.

We maintain an impressive fleet of advanced equipment to expedite every phase of site development, excavation and grading. Veit has earned an excellent reputation of completing fast track and difficult projects ahead of schedule by aggressively applying manpower and large equipment. No matter how complex your project or how challenging the site or soil conditions, Veit's professional site development team has the experience and the commitment to ensure your success.

Extensive safety certification

In addition to our award-winning onsite safety program, Veit field personnel receive extensive safety training and are certified in OSHA, MSHA, ECCS, RAILS SAFE, and HAZWOPER safety protocol.

Veit is trained, equipped and ready to commit to your budget and your schedule. Bring it on!

Mass grading, excavation, and sheet pile installation.
