

Specialty Contracting & Waste Management

EARTHWORK

Landfill Construction and Closure

Unique qualifications

Veit offers landfill clients a distinct advantage: We own and operate four fully-permitted construction and demolition debris landfills and have 20 years' experience in landfill construction and closure.

Veit's working knowledge of current regulations and operating issues makes us uniquely qualified to manage these complex projects for clients in private industry and the public sector. And our award-winning safety program is your assurance of worksite safety.

Successful landfill projects require precise placement of materials and liners. Veit has perfected complex excavation and placement techniques, including the use of GPS-guided equipment for grading to exact tolerances. We also have proven expertise in the construction of industrial, MSW, hazardous waste, and construction /demolition landfills. Veit's experience ranges from managing waste materials during closure operations to working on clay liner installation projects. Our large fleet of specialized equipment, including off-road trucks and scrapers, expedites every landfill project.

Turn to Veit for safe, compliant landfill construction and closure.

Placement of geotextile liner.

Landfill Services

- *Permitting/regulatory compliance solutions*
